## PROFILE

Driven by a passion for merging technology with creative expression, I specialize in crafting exceptional digital experiences as a Front-End developer. Currently, I'm deeply immersed in a robust tech stack featuring React, React Native, Flutter, Next.js, Vue.js, and adeptly integrating REST APIs, animations with GSAP, and managing content with Contentful. Continuously refining my skills, I strive to deliver innovative solutions that resonate with users.

I am currently pursuing a BSc degree in Software Engineering at COMSATS University Islamabad, where I am learning the fundamentals of programming, data structures, algorithms, and software engineering. I am also exploring new technologies and frameworks that can help me improve my app & web development skills and knowledge. I am eager to collaborate on projects that leverage my skills and expertise, and that challenge me to create cutting-edge mobile applications. Connect with me to explore potential collaborations and opportunities in the dynamic world of Web & App Development.

## EXPERIENCE

### Frontend Developer

Sep 2023 - Present

Stellar Stack | Abbottabad, Pakistan

Frontend Developer As a proficient developer specializing in the Stellar Stack, my expertise lies in crafting dynamic and visually compelling web applications. With a solid foundation in React, Astro, and Next.js, I seamlessly integrate these technologies to build responsive and efficient user interfaces. My proficiency extends to leveraging the power of Styled Components to ensure a modular and maintainable codebase, enhancing both design aesthetics and development scalability. Furthermore, I excel in incorporating GreenSock Animation Platform (GSAP) for creating smooth and engaging animations that elevate user experiences. Additionally, my skill set includes working with Content Management Systems (CMS), enabling seamless content updates and management for a streamlined workflow. With a keen eye for detail and a commitment to delivering high-quality solutions, I bring a versatile and innovative approach to every project within the Stellar Stack ecosystem.

### Freelance Flutter Developer

Jun 2023 - Aug 2023

Codematics Inc. | Abbottabad, Pakistan

As a Flutter intern at Codematics, I had the opportunity to enhance my skills by working on two significant projects. I developed the Vault app, designed to securely store images, videos, and contacts with password protection, ensuring users' data remains safe. Additionally, I built the App Locker app, which adds an extra layer of security by requiring a password before opening any app. These projects not only strengthened my Flutter development skills but also deepened my understanding of mobile security and user privacy.

## EDUCATION

### Bachelor of Science in Software Engineering

2025

COMSATS University | Abbottabad, Pakistan

I am currently in my 7th semester of pursuing a Bachelor of Science in Software Engineering. My journey so far has been incredibly enriching, filled with hands-on projects and diverse coursework. Each semester, I dive deeper into the world of software development, constantly learning and adapting to new challenges. I am passionate about technology and eager to continue expanding my knowledge and skills. Every day brings new opportunities to grow, and I am excited to see where this path will take me.

## SKILLS

Dart React Native Next.js C++ HTML5 / CSS  
Javascript Node.js ReactJS VueJS Flutter

## LANGUAGES

English Fluent

## OTHER SKILLS & CERTIFICATIONS

Full Stack Web Development by Dr. Angela Yu (Udemy)

- Gained proficiency in front-end and back-end development, including technologies such as HTML, CSS, JavaScript, React.js, Next.js, Node.js, and MongoDB.
